

Local & Miscellaneous.

(From Saturday's Daily.)

SALE OF TIGER.—Yesterday, Mr. J. Bartlett negotiated a purchase for the firm of Bartlett & Hewitt, with Messrs. Linn, French, Thorne, Bowers, Hogle and others, for 600 set on the northern extension of the Tiger lode, for the sum of \$6,000 cash. This, though a trivial sum for such feet, we feel sure, is an assurance to us that more enterprise will be directed towards our unexplored rich mines in the Bradshaw region.

FINE RAMS.—The ten full-blooded French Merino rams, which Mr. J. G. Campbell recently brought here, in a wagon from California, are now on the ranch of Campbell & Baker, Chino Valley. They are said to be fine looking specimens of wool-bearing animals, and will, in time, work a decided improvement in the flock of ewes of their owners. They cost, in California, \$60 apiece.

Mr. J. H. Lee called here this morning and informed us that he was unhappy to have to state that a large lion or cougar has, in a very short time, killed 17 head of fine sheep out of his herd, which is now in the hills near Mint Valley. We are sorry for Mr. Lee's loss and will rejoice upon learning that the destroyer of his mutton has been shot or starved.

This being Valentine's day, our friend Allen sent an unusually heavy mail, which we would imagine, after gazing at the multitudes of "missives" shown us by the many bachelors, recipients who, aglow with anxious expectations, consider themselves worthy of a letter late. But, alas, the dampeners which single day may bring forth.

FROM VERDE.—Jos. Melvin, L. B. St. James and G. W. Bowers arrived here recently from the Verde, where, according to the reports, are about 1,100 Indians on the reservation, all happy as clams, owing to a recent issue, by their good agent, Dr. J. Williams, of blankets, calico, needles, thread, etc. Heartily welcomes were generally extended yesterday to Dr. Kendall and Mr. and Mrs. Linn on their return from California. And any were the interesting narratives communicated by our worthy Dr. to his many friends incidental to his trip through Nevada and the various points visited through California.

We were pleased yesterday to welcome our friend "Yank," of the firm of Bartlett & Hewitt, looking jolly as ever. He has just returned from a visit to the States, and goes to Tucson, Pima county, where the firm have large stock ranch.

Mr. Wm. Kelly, a worthy business man this town, is about to erect a dwelling house of his own on Granite street.

Heavy rain storm commenced on Wednesday, since which time, snow, rain, and cold from the south have monopolized our climate.

Grant's flour-house stage, with mails and passengers for California, Southern Arizona and other places, started early this morning.

Webster & White's mail wagon left for us in Mohave county last night.

(From Monday's Daily.)

MILITARY AND INDIAN NEWS.—MORE AND SCOUTING TO BE DONE.—Captain James, 5th cavalry, is again confined to his bed, at Fort Whipple, by a severe illness. Latest reports from Verde reservation repeat the discipline maintained among the Apaches as excellent. Lieutenant Schuyler's command of 40 picked Indian warriors having increased to 100, nearly 150 Apaches presented themselves as volunteers to be enlisted under Lieutenant Schuyler had no difficulty securing the best material for his detachment. A scouting party is now being organized at Camp Verde, for service in the Tonto basin.

Lieutenant Schuyler's old scouts received their last week from Lieutenant Ross, A.D.C., who also devoting much attention to the organization and equipment of the pack train to company the troops.

Paymaster Taylor telegraphed to-day that he was unable to meet Col. Nelson at Phoenix, ordered, owing to the storm now prevailing, which has caused the Gila to rise three feet. Col. Taylor expects to cross the Gila at Organ, and the Salt river at Whitlow's. The body of Capt. Philip Dwyer, 5th cavalry, was brought from old Camp Date Creek to Fort Whipple, on Saturday, and was to be re-interred in the cemetery at that place, had the weather permitted, yesterday.

Lieut. Thomas, 5th cavalry, with Lieut. H. Bishop, Co. G, 5th cavalry, and a detachment of Indian warriors, is soon to start on a tour from Fort Whipple. General Orders promulgated from Headquarters of the Department, on Saturday evening, approve the sentences awarded by a court martial to a number of enlistments, tried for military offenses, at Fort Whipple.

We were in error in stating that the four old feet of Tiger extension sold for \$100, as \$20 per foot, or \$8,000 for all, had been paid to the owner, Mr. Bartlett. The buyers—Messrs. Bartlett & Hewitt, will start work on their purchase, as soon as possible, put up a mill.

His sale has caused great activity in mining and trading, several of which latter have since been made.

It is the belief of all that the original owner will soon change hands and undergo development.

There is talk of a 10-stamp mill being here soon for the Gray Eagle lode, Bradshaw.

THE FALL OF WATER.—While at Whipple, Arizona, our messenger, Mr. Fred Fecall, called at the Government Hospital, and secured the following figures, being result measurement of rain and snowfall in the four days:

February 12, 87
" 13, 19
" 14, 06
" 15, 1.50
Total, 2.53

his, with the result of former down-pours, the first rain and snow of the season, the fall here between the 15th and 21st of January last, gives about seven inches of rain that have fallen here. Pretty good, "dry" country.

Mr. Elko returned recently from Hassayampa creek, after having fixed a water wheel drive four arrastras, for Mr. Fredericks. Elko's story is that Fredericks has any quantity of very rich ore, ready for grinding, will certainly make big money this year.

A. Kimler came from Williamson valley, yesterday, in his buggy, and had the "pleasure" of having said buggy stick in the mud, all the way. He says the whole country is so bad.

men, to work in his placer claim. The men have gone. The Colonel is taking out gold by the ounce.

Wm. McCloud got into town a couple of days ago, from a short hunt on Ash creek and the Lower Agua Fria. He killed fifteen deer, and didn't appear to think his hunt a very successful one.

T. W. Brooks arrived here yesterday from Phoenix, and gave us information which we will soon reduce to writing.

H. H. Carter, Jr., has purchased, from J. E. G. Mitchell, the house and lot back of Gray & Co's old store.

A patent for the discovery location of the Tiger lode, has reached the Prescott land office.

Mr. W. W. Hutchison arrived here Saturday last, from his stock ranch on the Mohave road.

We, yesterday, saw several ounces of gold dust at Bashford's from Lynx and Big Bug creeks.

John Berry and wife got in Saturday last from Mohave county.

Eggs are going a begging at 75 cents per dozen.

On the tapis: Another wedding.

(From Tuesday's Daily.)

THAT TIGER SALE.—The talk, on the street, is that Mr. Geo. W. Bowers, who, we believe, acted as broker for Messrs. Bartlett & Hewitt, in the matter of purchasing that extension claim of 400 feet on the Tiger lode, made certain representations to Messrs. Cassidy, Thorne & Hogle, which induced them to sell their portions of the extension for \$10 per foot, while Mr. B turned said feet in to the real purchasers at \$20 per foot. This transaction, which would be looked upon as legitimate in San Francisco and New York, is not so viewed by Messrs. Thorne & Hogle, who feel pretty sore over their loss, and, we believe, have telegraphed Mr. Cassidy, who is in Pioche, Nevada, not to sign the deed. It is, however, said that Mr. Cassidy's power-of-attorney is already on the way here, and that he will stick to his original bargain, which was made by telegraph. It further appears that several owners in this extension didn't care to sell even for \$20 per foot, but did so to accommodate others.

MILITARY ITEMS.—Major G. A. Gordon, 5th Cavalry, late on duty as commanding officer at Camp Halleck, Nevada, has been ordered by Gen. Schofield to report to Gen. Crook for duty in this Department.

Acting Assistant Surgeon Warren E. Day, is a passenger on the Newbern, with the detachment of recruits for the 5th Cavalry, and 12th Infantry, sent on that steamer under command of Lieut. Rockwell, 5th Cavalry.

Parties arriving from Camp Base Springs last night, bring information that the Hualapai Indians are keeping quiet, and that the late theft of cattle was much exaggerated.

Lieut. Thomas' scouting party will leave Fort Whipple as soon as the pack train, sent from Beale's Springs, shall arrive at Whipple, where it is expected this evening or to-morrow morning.

Capt. Burns' condition is somewhat improved.

Mr. T. W. Brooks, who arrived here a day or two ago, from Phoenix, Salt River Valley, was in that place during the recent flood, and assisted in moving people from wet to dry places; he also crossed the river when no one else would do so, and raised telegraph poles which had been washed down by the mad waters.

He stopped at Bill Smith's quartz mill and saw enough to satisfy him that the institution was making money for its owners.

Mr. Brooks has high hopes that the Vulture company will soon again commence active operations at mine and mill.

Mr. C. Y. Shelton arrived from the head of Lynx creek, yesterday, and started back this morning. His story was that there were 16 inches of snow on the ground when he left his camp; that water was abundant and miners doing well. He has lately worked over from the Vernon lode, which paid at the rate of \$230.00 to the ton.

Mr. Pointer was working over from his ledge, by means of arrastras, driven by a water-wheel.

Mr. Fred. M. Williams, mayor of the village of Prescott, is taking hold of his duties in a workmanlike manner, and will, we think, prove a very efficient officer. Much remains to be done, by way of improving streets, alleys, etc., and as prospects for the steady growth of the village are now good, we hope to see our village council help matters along.

Brecht's wagon and blacksmith shops, on Granite street, fronting the old adobe store, are jammed, from morn till night, with work and workmen, which goes to show that these branches of business are remunerative and well understood by the proprietor.

Grant's backboard, with mail matter from the "outside world," worked its way to Prescott about 9 o'clock yesterday evening. The driver says he was forced to camp out one night. He is entitled to credit for making his way here at all.

This county is now said to be wetter than at any other time in the memory of the oldest white person. We have heard of wagons going out of sight in old traveled roads.

Sometimes last night, one Chinaman drew a pistol on another, but did not shoot. The matter will to-day, be investigated by Judge Otis.

Yesterday, Wm. A. Dearing shot and killed the lion which had been devouring Mr. Lee's sheep. The brute measured seven feet in length.

D. W. Shivers arrived here to-day from Chino Valley, and reports the "country" very wet and muddy.

A warm sun is melting the snow, which is going off in sluice and rocker heads at a rapid rate.

We would like to see a freight train, but have our doubts about seeing one for the next week or two, owing to the muddy state of the roads. Even those teamsters who used to haul lumber and wood from the mountains are seen no more.

A petition, requesting the village council to raise the pay of the village marshal and thus enable him to also act as night watchman for the whole town, is in circulation.

Snow-balling was the order of yesterday. Many were the hordes whose openings were for a time stopped by huge balls of the white compound. The snow was too soft to bear up sleds.

Many of our citizens feel that Prescott ought to have a cemetery for the burial of such people as may be "talked to death."

The wet weather has suspended all building operations.

(From Wednesday's Daily.)

Snow commenced falling about 6 o'clock yesterday evening, kept doing so during the greater part of the night and has been pouring down all day.

At this writing, 1 o'clock p. m., it looks as if we are to have a foot or more snow in Prescott, with four or five feet in the mountains. Arizona is now one grand swamp, and there is no telling when freight trains and other conveyances will be able to move. Stock men are driving their animals into sheltered canyons, which are handy and numerous all over this part of the Territory.

Mr. Ballou of Lynx creek, was in town yesterday, and informed us that word had reached that place, from Black Canyon creek, to the effect that several placer miners down there were making good wages by washing the gravel of small gulches. He said something about arrastras, but we did not get the hang of his words, he was in such a hurry to get back to his mining claim, which is so rich that one can see gold in the gravel.

Mr. Elliott and another man are taking gold rock from the Cornucopia lode, in Black Hills district, with a view of hauling the rock to Prescott and grinding it in his arrastra.

While at Agua Fria farm, he learned that a party of men were making money out of some gulches near the Ticonderoga lode, in Big Bug mining district.

Also, that Willard Rice was doing well with his arrastra.

In view of good times and an influx of strangers, citizens of Prescott and vicinity ought not to be backward about helping Mr. Reeder to put the church building in order. Strangers first ask, before coming to a new country, about churches and school-houses. Prescott has a good school-house and ought to have one or more churches.

J. Bartlett, for Tucson, Matt Welch, for McDowell and a Mexican named Juan Myer, started on Grant's backboard this morning.

Sunday next, February 22, will be the anniversary of Washington's birthday.

(From Thursday's Daily.)

The wash-house Chinese of Prescott are by the cars again, as rival Chinese "companies" have always been, on the Pacific Coast. A few nights ago, a Chinaman of the George Ah Fat company went to the house of the Tehin-No Company, where, after much blabbering, a pistol was drawn.

The leader or head of the latter company called on us a day or two ago and begged us to give the rival house a hand, for the reason that its members were bad men,—sons of mothers who, according to him, were no better than they should have been. We promised anything, everything, to get rid of him, when he again opened and said that the Ah Fat or Han Fat man came to his place intending to "kill" him if he could not make him pay a big sum of money (for a Chinaman) that upon refusing to pay the money, the fat man drew his six-shooter and threatened to bullet him out of existence, a thing we would sooner hear of than to be forced to hear such another confounded tale even from a Celestial. The upshot of the row was, that the principals in the affair were bound over to keep the peace, which was right, considering that "they are on it."

As the time approaches for commencing work on a building which the county is to erect, taxpayers are talking about the cost, etc., and we have heard some of the heaviest taxpayers in the county say they would rather see the county go in debt for a good house than see the money thrown away in patching up what, in a very few years, will be inadequate to the wants of the county. These are our sentiments, and, being the first to advise the putting up of a good building in the plaza, we still hope that the board of supervisors will canvass the sense of taxpayers, and, should a majority of them favor the plan indicated by us, act accordingly to the ideas of the majority. The right kind of a house would, of course, cost considerable money, but, when finished, it would answer every purpose and last for scores of years, while the present building and the addition proposed to be made to it, cannot possibly fill the requirements of the county for any great length of time.

WEATHER.—It ceased snowing some time last night, and at this writing, 2 o'clock p. m., the sun is melting the snow at a rapid rate. Persons from the mountains back of town report from four to six feet of snow, not less than 16 inches of very wet snow fell in and around Prescott.

The mail-wagon arrived a little after 2 p. m. The driver reports the roads extremely bad, and Kirkland creek so high that his horses had to swim.

San Francisco papers of late date announce the arrival there, from the East, of Mr. and Mrs. Levi Bashford and son, of Prescott.

Mexicans have commenced bringing gold dust to town. Yesterday evening one of them traded several ounces to C. P. Head & Co.

Bad as yesterday was, 26 scholars attended school.

Lieutenants Thomas and Bishop, with Company G, 5th Cavalry, started on a scout from Fort Whipple to-day.

There was a heavy frost this morning which occasioned a tingle at the finger-tips of the early birds. The day has been the only really bright one for a long time, and is quite refreshing.

The young folks of the village, and the old ones, too, if they feel so inclined, will dance at the court house on Monday evening, in honor of Washington's Birthday. A pleasant time is anticipated.

The freight train of which J. T. Randle is wagon-master, pulled out of Ehrenberg for Prescott on the 13th inst.

COMING.—Lieut. A. E. Woodson, 5th cavalry, and family, left Paducah, Ky., on the 5th inst., for Camp Grant, Arizona.

Mr. Donahugh, of Williamson valley, arrived here yesterday with a man who, on the night of Tuesday last, was badly cut, by a knife in the hands of another man. The man cut and the man who did the cutting were in the employ of Mr. Standifer. They quarreled over a game of cards, first fought with their hands, after which, the worsted party produced a knife and cut his adversary in the leg and abdomen. Dr. McCandless is attending to him.

MARRIED.

In Lyons, N. Y., at Grace Church, by Rev W. H. Williams, January 22, 1874, Mr. Frederick P. Browne, of New York City, and Miss Marianna W., daughter of the late Col. Foster, Esq., of Lyons.

The lady is the sister of Mrs. Levi Bashford and the Foster Bros. of this town, in which she resided for nearly a year, and was a favorite of all who had the pleasure of her acquaintance.

BORN.

In Tucson, February 4, 1874, to the wife of A. C. Benedict, a son.

In Yuma, January 31, 1874, to the wife of Wm. A. Wenzinger, a daughter.

SPECIAL NOTICES.

ORLANDO ALLEN, P. M.

NEW ADVERTISEMENTS.

To the Democracy of Arizona.

The Democratic members of the 7th Legislative Assembly of Arizona Territory, held a meeting on the 16th day of February, 1874, at Tucson, for the purpose of taking into consideration the organization of the Democracy of Arizona Territory; at which meeting, among other things they appointed a Territorial Central Committee, to meet at Prescott, on Monday, May 19th, at the time, and place, as the place for the holding of the first Democratic Territorial Convention, and at the same time appointed Mr. Chairman of said Committee.

Within the past few weeks I have been urged by Democrats from the various counties of the Territory, as Chairman of said Committee, to address the Democracy of the Territory, calling their attention to the action of the Democratic members of the 7th Legislative Assembly as aforesaid.

It would be the duty of the Territorial Central Committee to meet and fix the representation to which each of the several counties would be entitled in the Territorial Convention, but for the haste fixed by said meeting at Tucson in forming the Territorial Committee, said Committee was formed by giving to Pima county seven members, Yavapai county seven members, Maricopa county five members, Yuma county four members, and Mohave county three members.

This seems to me to be so nearly equal and just, that I have thought proper to call the Democracy of the Territory (in view of the great inconvenience in convening the Central Committee) accept it as the basis of representation in May next.

As a member of the Democratic party, desirous of its organization, I would urge upon the Democracy of the various counties the duty and necessity of prompt action in this regard.

The time for the meeting of the Territorial Convention in May next is fast approaching, and it behooves us, if we would be promptly organized, to see that our respective counties take such steps as will insure the attendance of delegates in said convention.

I see no good reason why the delegates from the various counties to the May convention, may not be selected, either by the county committee of the respective counties, or by convention, as may best suit the Democracy of the particular county.

In conclusion, permit me to say that I believe the time most propitious for organization, and that with organization success is almost certain; without it we can effect nothing.

That organization is essential to the success of the party, is a proposition so palpable that no argument need be adduced to support it.

POLIO DEMOCRATS. Let us work harmoniously for the success of the party and the good of the country. Let us local prejudice divide us, let us select our best men, without reference to their particular locality. Let us select good and true men devoted to the best interests of the Territory—men whose interests are with us, and who are of us, and we will be entitled to success and will succeed.

JOHN A. RUSH,
Chairman Central Committee.
